This certification statement must be completed and submitted to the New York State Teachers' Retirement System with submission of your June report. You only need to submit one certification statement for the entire year. **Reports must be certified by the Chief School Administrator (or his designee) responsible for the reporting location.** This form has also been designed as a tool for the districts to help identify any reporting errors that had previously been undetected.

For example:

Total Number of Employees Reported - in the month of November, the employee count had declined. This may be an indication that some employees were dropped from the November monthly report. The decline in the Total Member Contributions Reported, Total Gross Salaries Reported and Total Base Salaries Reported would further support the case that employees were dropped from the report.

In this situation, the district should review the November file for errors and immediately report any issues identified to their NYSTRS Employer Reporting Contact at (800) 348-7298, Ext. 6220.
